

# Personal Pride Bracelet

**Ages 8+**

## Materials:

- Multicolored beads, 30 per kit
- Shaped beads, 4 per kit
- Elastic cord, 1 foot per kit
- Not included: scissors.
- Optional: tape.

## Instructions:

1. Measure the elastic cord against your wrist to size your bracelet. Make sure to leave a few inches on the end to tie it off at the end!

Tip: Stretch your elastic before adding beads so your bracelet stays stretchy.

2. Use the beads to make a pattern that showcases what "Pride" means to you! Be creative and have fun with it.

Tip: use a piece of tape to stop your beads from falling off while you are creating your bracelet.

3. Once you've finalized your pattern and added all of your beads, tie the two ends together to secure the bracelet.

Start by crossing the left end of the cord over the right end and under, creating a half knot.

4. Bring the same end over and under again, creating two wraps around the cord.

5. Finally, cross the right side of the cord over the left side, creating a half knot over the two wraps.

6. Pull both ends tight to complete the knot.

Optional: Add glue or clear nail polish and let dry to keep the knot extra secure.
