

Paper Plate Cloud

Ages 3+

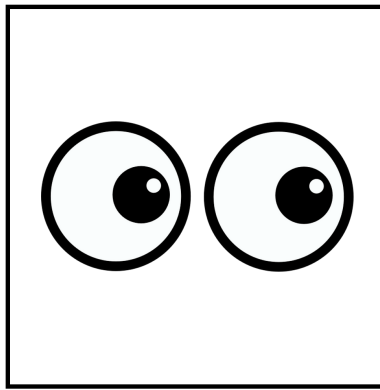

Materials:

- Paper Plate, 1/2 plate per kit
- Colored Streamers, 1 foot/color per kit
- Googly eyes, 2 per kit
- Not included: scissors, glue or tape, marker.
- Optional: hole punch and string

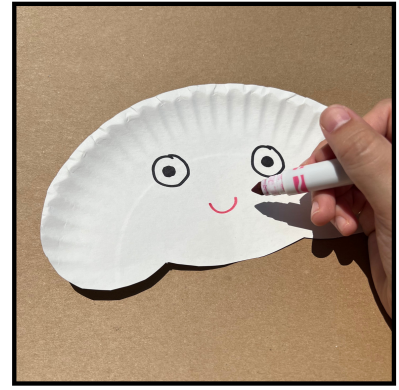

Instructions:

1. Use your scissors to cut around the paper plate, rounding the edges to resemble a cloud.

2. Peel the back paper off of the googly eyes. Stick them to the plate.

3. Use a marker to decorate the plate however you want!

Draw a nose and mouth, or abstract swirls to capture the essence of a cloud.

4. Turn your plate over and glue or tape the streamers to the back of your plate along the bottom edge.

This will create a rainbow below the cloud.

Optional: Use a hole punch to punch two holes into the top of your paper plate.

Take a piece of string and tie each end to the holes to hang up your artwork!
